

ECONOMY LANDSCAPER

ProStar's economy landscape trailers are 7k gvwr and 76" wide between the fenders. They have angle iron rails that are 12" in height. Rear gate is a split ramp mesh style. Deck is grade 1 treated wood. Lights and wiring are well protected. Good quality primer and paint finishes above and below.

ProStar's economy landscape trailers are rated at 7k gvwr with a more compact utility design.

These trailers are perfect for setting a quality image for your company when on the road. This is a well built trailer ready to handle the toughest of jobs. The quality paint job is finished with pin striping detail along the sides.
